Zach Parmenter | Software Engineer

737-465-7849 | zparmenter20@gmail.com /in/zachparmenter/ | github.com/zparmenter | Austin, TX.

RELEVANT EXPERIENCE

bored | Solo Concept Project (Code | Live)
HTML, CSS, JavaScript, jQuery | 1 Week
- An interactive front end game where you can play rock paper scissors, etch-a-sketch, & figure out what it takes to be a millionaire (time value of money calculator)
- Utilized DOM Manipulation and jQuery to make the game a bit more animated and fun
- Deployed on GitHub and presented as first project in General Assembly bootcamp

sellBooksUp | Group Project (3) (Code | Live)
HTML, CSS, JavaScript, Bootstrap, EJS, Node, Express, MongoDB | 1 Week
- Full Stack book review site with Admin capabilities, user login, and browsing books on site
- Used Node, Express and MongoDB to build out the user routes/models and login/new user forms
- Utilized CSS to make the book show page, forms, and grid of books
- Deployed on Heroku and presented as second project in General Assembly bootcamp

lookC | Group Project (3) (Code | Live)
HTML, SCSS, Python , Django, EJS, PostgreSQL | 1 Week
- Full Stack travel blog website where you can write blogs about the different cities you visit
- Utilized Django and Python to serve the backend information to Tony who did the frontend
- Things I did include: user login and sign up, comments, pagination, search, etc.
- Deployed on Heroku and presented as third project for General Assembly

highstreethub | Solo Project (Code (backend) | **Code (frontend)** | Live)
MERN | 1 Week
- Full Stack social/digital media CRM where you can track your clients and audit their web presence
- Utilized two separate repos for the frontend and backend
- Used React to create user forms and experience
- Deployed on Heroku for the backend and Netlify for the frontend as my capstone at General Assembly
